RF600 Configuration

Product Description

Communication modules
ASM 456
Communication module for connecting up to 2 readers to PROFIBUS DP-V1 6GT2002-0ED00

Connection block
for ASM 456 and RF160C
ECOFAST 6ES7194-3AA00-0AA0
M12, 7/8'' 6ES7194-3AA00-0BA0

SIMATIC RF600 labels
SIMATIC RF622L SmartLabel, plastic PET, adhesive on one side, 90 mm x 18 mm, for ETSI 1), FCC 2), CMIIT 3), 4 KB FRAM 6GT2810-4AC80

SIMATIC RF630L SmartLabel, paper, adhesive on one side, 101 mm x 152 mm (4'' x 6''), for ETSI 1), FCC 2) 6GT2810-2AB00

SIMATIC RF680A SmartLabel, paper, adhesive on one side, 4 mm x 2 mm (0.2'' x 0.1''), for ETSI 1), FCC 2) 6GT2810-2AB01

For bus cables and RFID standard cables as well as additional accessories, see Catalog ID 10.

For precise system and component selection criteria, please refer to the RFID Configurator at www.siemens.com/rfid-configurator.

All current approvals can be found on the Internet at www.siemens.com/rfid-approvals.

1) ETSI: for Europa, 865 to 868 MHz
2) FCC: for USA, 902 to 928 MHz
3) CMIIT: for China, 920 to 925 MHz

Siemens provides products and solutions with industrial security functions that support the secure operation of plants, systems, machines and networks. In order to protect plants, systems, machines and networks against cyber threats, it is necessary to implement – and continuously maintain – a holistic, state-of-the-art industrial security concept. Siemens’ products and solutions only form one element of such a concept. Customer is responsible to prevent unauthorized access to its plants, systems, machines and networks. Systems, machines and components should only be connected to the enterprise network or the internet if and to the extent necessary and with appropriate security measures (e.g. use of firewalls and network segmentation) in place. Additionally, Siemens’ guidance on appropriate security measures should be taken into account.

For more information about industrial security, please visit http://www.siemens.com/industrialsecurity.

Siemens’ products and solutions undergo continuous development to make them more secure. Siemens strongly recommends to apply product updates as soon as available and to always use the latest product versions.

Use of product versions that are no longer supported, and failure to apply latest updates may increase customer’s exposure to cyber threats. To stay informed about product updates, subscribe to the Siemens Industrial Security RSS Feed under http://www.siemens.com/industrialsecurity.

For bus cables and RFID standard cables as well as additional accessories, see Catalog ID 10.

The information provided in this brochure contains merely general descriptions or characteristics of performance, which in case of actual use do not always apply as described or which may change as a result of further development of the products. An obligation to provide the respective characteristics shall only exist if expressly agreed in the terms of contract. Availability and technical specifications are subject to change without notice.

All product designations may be trademarks or product names of Siemens AG or supplier companies whose use by third parties for their own purposes could violate the rights of the owners.
